Section 2: Introduction to Boiler Care

What does Boiler Care provide?

Boiler Care provides Maintenance & Support for your product, as long as it is operated in a domestic environment. It is designed to help ensure your product continues to work correctly and to minimise the chances of mechanical and electrical breakdown.

Introduction to the different plans

There are different plans available under Boiler Care:

Plan type	Provides Maintenance & Support Services for:	Please note
Boiler & Service Care	Boiler and controls only	Your system is not included
Boiler Radiator & Service Care	Boiler, controls and system	
Landlord Boiler Care	Boiler, controls and system	Gas safety check included

Some Boiler Care plans also require you to pay a call-out fee for onsite visits. If this applies to the plan you have selected, the amount of the call-out fee will be set out in your welcome letter.

What products are eligible for Boiler Care?

Your product must be:

- owned by you and used for personal and non-business purposes only (for the avoidance of doubt products located in leased-out domestic homes are eligible);
- in good working order and under 15 years old when you take out the plan; and
- located in the United Kingdom.

Your product cannot be:

- a warm air unit; electric, LPG or oil boiler or combined heat power unit;
- a commercial or industrial grade boiler/controls, such as one with more than 200,000 BTU/HR 58.6K input; or
- located on a boat or in a mobile home.

Note each Boiler Care plan only applies to a single boiler. Any additional boilers would need to be looked after by a separate plan.

Is Boiler Care right for you?

You must be at least 18 years old and resident in the United Kingdom.

Section 3: The Maintenance & Support Services

Depending on the plan type you have selected, your Boiler Care plan will be made up of the Maintenance & Support Services as indicated in the table below and as described further in these terms and conditions. Please note, for the first thirty (30) days following your application date we will not provide any Maintenance & Support Services. This is your 30 day wait period. We can provide the details of a repairer in your area, but any charge for work carried out cannot be reclaimed from us.

Customer helpline

To ensure your product continues to work correctly and to optimise its performance, you can access our Maintenance & Support Services by calling us at any time on 0800 001 5214 and we may from time to time offer you hints and tips online through our website.

Annual service

Each year we will contact you to arrange for an authorised service technician to visit your home and perform an annual service on your product (your boiler, controls and, if part of your product, the system); to ensure that it is working efficiently. This will be carried out to statutory requirements and in accordance with the manufacturer's recommendations. The service technician will also offer you advice on how to use your product. You can also arrange it by calling 0800 001 5214. Subsequent annual services will be carried out on or around the anniversary of the preceding annual service, subject to the availability of service technicians and your appointment preferences. Please note where possible, annual service visits will be scheduled for the summer months.

Ongoing support

In order to help ensure your product continues to function correctly, we may from time to time offer you hints and tips online through our website. In addition, you can call us at any time on 0800 001 5214 throughout the duration of the plan term if there is a problem with the operation or functioning of your product or if your product fails the gas safety check (where you have Landlord Boiler Care) or the annual service. We will try to resolve the problem remotely, however if we are unable to resolve the problem, we will approve an onsite visit from an approved service technician to get your product working correctly again (see 'Onsite visits' on page 7). If you have purchased a plan with a call-out fee, before an onsite visit is arranged you must pay us the call-out fee. The call-out fee is not payable if you require a second onsite visit within 30 days of a previous onsite repair visit.

Onsite visits

Where an onsite visit is approved, we will either organise the service technician visit or provide you with the details to allow you to organise the service technician visit at your convenience. Onsite visits will take place during normal working hours which are at least 9am to 5pm (except on public holidays) Monday to Friday on a date agreed with you. They may include repairs and further maintenance checks carried out on your product. We will pay for costs for call-out (other than the call-out fee, if one applies to your plan), labour and parts, as long as these are not covered by a manufacturer's guarantee. You must use our approved service technicians. Please have your plan documentation to hand when the service technician arrives. Note, if your product contains data this may be wiped during the repair process. In each year of your plan, the most we'll pay in total for repairs we approve is £1,500, this is the repair limit.

If we approve an onsite visit but are unable to find a service technician, we'll permit you to use your chosen service technician. They must be Gas Safe registered. You will have to pay them and claim the cost back from us. Please keep a copy of your invoice to send to us. If we permit you to use your chosen service technician and the proposed repair is estimated to cost more than the repair authority limit of £200, then you must ring the repair authority line on 0800 597 8580 for an authority number before work starts.

Safety message

If our service technician finds that your product is unsafe (and, if relevant, it cannot be immediately repaired) they'll label it and with your permission condemn it (and disconnect/isolate it), and it must not be used again until the fault has been corrected. This is extremely important for the safety of those at the property.

Note all the service technicians we use for Boiler Care will be Gas Safe registered.

Replacements

If our approved service technician is not able to repair your product, or we decide that it is uneconomical for us to repair your product (because for example the repair would cost more than the lesser of (i) the repair limit or (ii) the price of a new product), we will arrange to replace your product with a new boiler up to a value of £750. Subject to availability and the price limit, the replacement will be of the same or similar technical specification.

If we cannot reasonably arrange a replacement, we will give you manufacturer credit or vouchers instead. The manufacturer credit or vouchers will be for the full retail price (from a manufacturer chosen by us) of a replacement boiler up to a value of £750. Manufacturer credit or vouchers will be valid for 12 months from the date of issue and will be sent electronically or posted to the last address you gave us.

Under this plan, we will not be responsible for any installation or delivery costs. We will also not pay for a replacement flue if this is needed for the new boiler or any upgrading costs associated with the new replacement boiler.

If we arrange a replacement or alternatively give you manufacturer credit or vouchers, your plan will end immediately.

Issuing a landlord gas safety record (Landlord Boiler Care only)

If you have Landlord Boiler Care, each year we will contact you to arrange for an authorised service technician to visit your home and carry out a gas safety check of the gas meter, gas pipework (from the gas meter) and gas appliances located at your home (CP12). We will then send you a record to confirm that this check has been carried out. If any part fails the check, we will include the full details in the record. You can also arrange the check by calling 0800 001 5214.

Section 4: Fees, duration and cancellation

Fees

You must pay the monthly fees (inclusive of all applicable taxes) by Direct Debit and make regular payments in accordance with the 'Your payments details' set out in your plan documentation. Before your plan ends, we will send you a renewal notice (see Duration and renewal' below). If you do not pay for your plan on time, it will be suspended from the due date and we will send you notice in writing of this. No Maintenance & Support Services will be provided past this date unless payment is received. If we do not receive payment from you within 2 weeks, we may cancel your plan immediately and we will notify you in writing. You will not be entitled to any refund of payments you have made prior to this cancellation.

Duration and renewal

Your plan will start after the 30 day wait period has ended. The start date is set out in your welcome letter. Your plan continues for a year (unless ended in accordance with these terms and conditions).

Note, if you have transferred to your plan from another ScottishPower Boiler Care plan, then the 30 day wait will not apply.

Before your plan ends, we will write to you about renewing. Your renewal notice will show the new amount to pay and your renewal date. The fee payable may increase at renewal. As you pay by Direct Debit, your Maintenance & Support will automatically continue for another year with a new plan at each renewal, unless you inform us otherwise at least 2 weeks before the date your plan is due to renew (See 'Your right to cancel' below). Such cancellation will take effect on the expiry of the current plan term. Unless you have advised otherwise, the renewal fee will again be collected from your specified bank account, to ensure you are always cared for. A cooling off period (lasting 14 days from renewal of the plan or the day on which you receive your renewal documentation, whichever is the later) applies at the renewal of your plan. We reserve the right not to offer you a renewal on your plan.

Your right to cancel

You will receive a full refund if you cancel the plan within the fourteen (14) day period from receipt of your documentation or from the plan sale date, whichever is later (the cooling off period).

If you cancel your plan after the cooling off period, you will not receive any refund.

If you have received a repair, prior to cancelling your plan, you may have to pay the cost of the repair. This will be capped at the plan fee (less any fees you have already paid in the current period).

Our right to cancel

If at any time your product is replaced, your plan will automatically end and no refund will be due (see 'Replacements' on page 7).

We may cancel this plan where there is a valid reason for doing so by giving you at least 7 days' written notice to the address you have given us. Valid reasons include but are not limited to the following:

- where you fail to comply with certain conditions (see 'Your responsibilities' on page 14);
- where you fail to pay for the plan, if applicable (see 'Fees' above); or
- where you have used threatening or abusive behaviour or language towards our staff or suppliers.

If we cancel your plan using this provision, you will receive a pro rata refund of any fees paid for the remaining unexpired days of your plan.
